THE L. A. KINSEY CO., INCORPORATED, CAPITAL, \$25,000-FULL PAID. - DEALERS -CHICAGO GRAIN AND PROVISIONS,

NEW YORK STOCKS. Commissions on stocks reduced to 1/4 to buy and sells BRANCHES-10 West Tenth street, Anderson, Ind Long Distance Telephone, 1375. 11 and 13 West Pearl Street.

Coal Presidents' Agreement Means a Profit of \$15,000,000-Local Markets Weak and Fluctuating. At New York Saturday money on call

was easy at 5 per cent. Prime mercantile paper, 6@8 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.88\\@4.88\ for demand and \$4.87\\@4.87\\ for sixty days; posted rater, \$4.88@4.88% and \$4.89%@4.90; commercial bills, \$4.86%. Bar silver, 674c; Mexican dollars, 534c; at London bar silver was 30%d per ounce.

The weekly bank statement shows the following changes: Reserve, increase \$1,944,000 Loans, decrease 717.20) De posits, increase 706.400 Circulation, decrease 11,500 The banks now hold \$39,623,400 in excess of the requirements of the 25 per cent.

The exports of specie from the port of New York for the week amounted to \$513,-505 in gold and \$899,300 in silver. The imports were: Gold, \$1,914,761; silver, \$121; dry goods. \$3,014,466; general merchandise, \$6,-

The New York Financier says: "There was less change in the statement made by the associated banks of New York for the week ending Feb. 1 than had been expected. The decrease in loans was only nominal, compared with the heavy liquidation which has been going on without interruption for weeks past. The banks report a gain of \$2,121,500 in cash during the week, although the interior movement must have increased their holdings not much less than \$1,000,000. The increase in specie was only \$635,000. It would be interesting to know how much of this was in gold and what proportion in silver certificates. The statement, if it is to be interpreted in a general sense, means more than anything else, that the banks have made ample preparations to meet the new loan. They held, at the close of the week, an excess cash reserve of \$35,000,000 as compared with about \$19,000,000 during the middle of December. They have reduced their loans over \$45,000,000 and they have \$13,000,000 more in cash holdings than at the time mentioned." Total sales of stocks Saturday were \$2,227 shares, including the following: Amer-Sugar, 8,400; Atchison, 2,600; Buriing-4,200; General Electric, 4,600; Louisville & Nashville, 1,900; Missouri Pacific, 2,400; Reading, 4,400; Rock Island, 4,900; St. Paul, 7,900; Southern railroad preferred, 2,100; Tennessee Coal and Iron, 2,900; Union Pa-Transportation Company certificates, Wheeling & Lake Erie, 3,000.

BELOW THE AVERAGE.

The volume of business in stocks Saturday was rather below the half-holiday average. The prices of most shares on New York 'Change were shaded at the opening, owing partly to lower quotations from London and moderate selling for that account here and to liquidation on apprehension of the probable passage of the free-silver bill in the State. Manipulation for an upturn was soon discernible. However, aggressive strength in prices developed, and sharp advances occurred along the line. General Electric was the feature of the dealings. rising 2 per cent, on rumors that the company had submitted specifications to the Manhattan railway for a change of motive power and that the same had been accepted. The lack of confirmation of the story, coupled with the general reactionary movement late in the day, was followed by realizing sales resulting in the loss of part of the improvement. The gains in other shares were of less importance, but Sugar. Tennessee Coal, Union Pacific and Rock Island figured for about a point. In the last hour, a general selling movement occurred. Burlington was exceptionally weak, falling 1 per cent. on disappointment over the December exhibit of earnings. The market closed quiet, but heavy in tone. The all-important event of the week was eleven great anthracite producing and carinterests relative to the of the tonnage between respective companies. Efforts had been made at intervals in the last three years to rearrange the schedules of output so as to include the interests that and developed into active operation since the original agreement was made, but without success. All doubts of the practical character of the plan now in force have been effectually disposed of by the closing down of a number of coal mines, chiefly be-longing to the Reading, and by the prompt action of the sales agents in limiting the output for the current month, with a coincident average advance of 30 cents per ton in prices over the recent actual selling figures. Reading and a return to big dividends for the security holders of the companies concerned in the deal. In the slang of the street it means a "rake-off" of from \$15,000,000 to 20,000,000 to be divided this year. Interest naturally centered in the anthracite coal stocks and advances from the low points foiowed of 7% in New Jersey Central, 4% in Reading 4 in Susquehanna & Western pre-3% in Lackawanna and 2% per cent. n Delaware & Hudson. Reading securities were the most active of the group, heavy blocks of the stock and bonds being dealt in. It is reported that 90 per cent. of deposits have been made under the plan of reorganization. Previous to the completion of the coal deal the general market had reflected the manipulation of two prominent professional operators and a reaction in prices had been expected. The buoyancy of the coalers, however, had a stimulating influence on the other shares, which was in-

BULLS ENCOURAGED. An easier tendency in the money and exment early in the week. The movements in prices were irregular, but the undertone as noted was strong. London was a factor on er. Toward the close the free silver agitation in the United States Senate unfavorably affected the sentiment of the financial community, but powerful support was evident in the market, and the losses were recovered. A sharp rise in Manhattan was attended by revived reports of preparations \$4.88% and 4.87%.

for an electrical equipment of the various At Philadelphia—Clearings, \$10,635,296; bal branches. The aggregate sales were 1,210,691

creased by the publication of a number of

favorable exhibits of railroad earnings.

The rallway bond market was governed by the identical influences operative in stocks. The anthracite coal agreement as to the tonnage and subsequent advances in coal prices caused exceptional movements in Reading issues. The fours trust receipts rose 24. fours unstamped, 24; fours first preference incomes, trust receipts, first ascossment paid, 6%; trust receipts, second, 5; trust receipts, third, 5% and trust receipts, deferred incomes, 1 per cent. The Northern Pacific mortgages were also conspicuous for strength on the decision of the Supreme Court fixing the court of primary jurisdiction. This will, it is believed, help materially to straighten out the tangled affairs of system. The aggregate dealings for the

week were 12,509,000. To-day's bond market was irregular, but nly firm. Dealings amounted to \$786,000. Government bonds were heavy, with a decline of 1 per cent, in the bid price of the The total sales were \$30,000. For the week concessions are noted from the olds current at the close of the preceding week. The trading was increased in volume amounting to \$228,000. Business in State securities was very light, figuring up only \$28,000. The market was quoted firm Renewed animation was noted in the spec plation in mining stocks. The sales were

0,800 shares, with but slight changes in The following table, prepared by James E. Berry, Room 16. Board of Trade, shows the range of quotations:

Anaconda 661/ Mount Rosa 161/2 WEEKLY REVIEW. Henry Clews says of operations in Wall

street last week: "During the past week, Wall street has generally shown a re-cuperative tendency. There is still the ries, 90c@\$1.10; lobsters, \$1.85@2; red cher-ries, 90c@\$1.10; lobsters, \$1.85@2; red cher-ries, 90c@\$1; strawberries, 90@95c; salmon, 1same uncertainty about the exact shape in which the subscriptions to the new treasury loan will come out; but the uncertainty is no longer a cause of disturb-There is no second opinion about the whole loan being subscribed; and as the first installment taken up will call for only some \$22,000,000 of gold no one dreams of any difficulty about providing for those payments. The fact that the demand for gold at dealers' hands has subsided and that the premium on gold and legal tenders has almost disappeared implies that the preparations for paying the first installment have been about completed; which means that the effect of the disbursements to the treasury on the 6th inst. has already been anticipated. Of course, the bank statement of next week will show some loss of lawful money reserves; but that is understood in advance, and with a surplus of nearly \$38,000,000 already in hand the withdrawals can not only be well afforded but will have a good tonic effect upon the money market; for a surplus reserve of \$38,000,000 is not to be regarded as a healthy symptom or as having a healthy tendency;

it is rather a depressing indication of stag-

"The general conditions affecting financial affairs are working into a more settled and normal state. The widespread process of liquidation that has been in operation for many months, indeed for nearly three years past, seems to have culminated. Foreigners have ceased to return our securities; the scare and distrust of English investors has not only abated, but is succeeded by occasional spurts of demand for our stocks and bonds. Continental bankers are understood to have shown a gratifying confidence in American credit by important bids for the new issue of government bonds, thereby intimating that they take our currency derangements less seriously than do the Anglo-Saxons. Our trade balance is getting into a more wholesome shape. The excessive imports that followed the reduction of import duties are now rapidly abating. Our exports, held back for four months following the harvest, are now going out in much larger volume, and that in the face of advancing prices for farm products. The extraordinary charges in European politics and the dangers thereby suggested are making foreign investors more willing to consider the merits of American securities, owing to their exemption from the contingencies now affecting the old world issues. The foreign exchanges are turning quite decidedly in our favor. Gold is coming from London, and although the arrivals are rather due to subscriptions to the new loan than to ordinary commercial remittances, yet the bonds going out will help to ease our balance with Europe and may possibly reach the result of making the importation of gold a paying operation. The item of foreign balances resting here is in an unusually conservative position. That balance has perhaps never been so low as it is to-day. Indeed, the process of liquida-

tion has been so complete and radical that

it is doubtful whether, outside of our securi-

ties permanently held by foreigners, this

country has for twenty years been so com-

pletely out of debt to other nations as it is to-day. receives. We have steadily got down to 'hard pan' under the most dangerous and discouraging circumstances. We have been against ourselves and the world has been against us. Our statesmen have failed to comprehend our difficulties, and our politicians have been brutally reckless in their attacks upon public confidence. Yet we have met all the liquidation attending these conditions with unflinching strength and In Wall street, of course, the episode has been halled with profound satisfaction as market value of securities, but the solvency 5.470 foreshadowing the rehabilitation of the of our merchants and industrialists has 5.350 been firmly maintained, and we are only awaiting permission from our political masters to start into a great revival of enterprise. It is not to be wondered at that | 2 Windsor A, 4.91c; 3 Ridgewood A, 4.85c; European observers are said to be surprised at the strength of resistance to adverse circumstances that our people are exhibiting. This attitude cannot but compel their confidence, in spite of our neglect to put our currency and other financial conditions in a sounder position. The fact is that the financial strength and the mechanical equi ment of our industries are such that it is mpossible to inflict upon them anything beyond a temporary and partial restriction. and they stand constantly ready to expand their operations upon the first indication of more encouraging conditions. We fully anticipate an active resumption of business so soon as the waiting for the completion of the treasury loan is ended.

"In trade circles there is an evident tendency toward better business. The change is especially apparent in the iron and cotton goods markets, and to some extent also in groceries. The trade reports from interpoints show a better feeling. But the high rates of discount and some sensitiveness about the outcome of large maturings of loans at this juncture have in some measure held large operations in check for

the moment.' Saturday's Bank Clearings.

LOCAL GRAIN AND PRODUCE.

Trade of the Week Disappointing, with Unsettled Prices.

The volume of business in the week closing yesterday fell below expectations as did the trade of the month of January, the weather conditions and bad roads being largely the cause. Stocks are low with the | steel, 41/2/050 retail men and trade is good when the country roads are passable. While prices have not varied much in some lines, they are un-settled. Sugars, provisions and poultry were higher at the close of the week than on Monday, while eggs, hides and vegetables took a lower range and only cabbage is in active demand and higher. Oranges and lemons are weak at quotations. Recelpts of eggs and butter are large and prices are weak. Shippers are now paying He per dozen for eggs, against 22c in Janpary, 18895. Irish potatoes are selling at 100025c per bushel, against 90c@\$1 a bushel in the corresponding period of 1895. hay market is active and prices firm, bad roads cutting down receipts. The flour market is active and prices firmer. Seed men report trade improving at unchanged

The local grain market was not as active in the latter part of the last week as its earlier days. Receipts fell off sharply after Wednesday and transactions were few.

1614 eral weeks past as regards prices. Oats are in better request, the advance in price hav-ing stimulated the demand. The week closed with track bids ruling as follows: Wheat-No. 2 red, 69c; No. 3 red, 66@67c; wagon wheat, 68c. Corn-No. 1 white, 27c; No. 2 white, 27c; No. 3 white, 27c; No. 2 white mixed, 27c; No. 3 white mixed, 27c; No. 2 yellow, 274c; No. 3 yellow, 274c; No. 2 mixed, 27c; No. 3 mixed, 27c; ear corn, 25c, Oats-No. 2 white, 23c; new No. 2 white, 22½c; No. 2 mixed, 21c; new No. 3 mixed, Hay-No. 1 timothy, \$13@14; No. 2, \$12@

> The Globe Fire of New York has reinsured all the business of the Hope Mutual Fire of The New England Burglary Insurance Company of Boston has been admitted to the State of New York.

> Francis Peabody, jr., has been elected president of the Old Colony Mutual Fire of Boston in place of ex-Govenron Russell, re-The Mutual Fire Insurance Company of Georgia has been organized at Savannah, and has received a charter from the Secre-

tary of State. George D. Eldridge has been elected third vice president of the Mutual Reserve Fund Life, a position from which he resigned soon after the death of Mr. Harper. The grand jury of New York has indicted Wolf Silverman for attempting to swindle the Metropolitan Life by substituting for examination for insurance a healthy woman in place of his dying wife.

The Fidelity and Casualty Company, of New York has declared a semi-annual divi- | Corn-Feb dend of 8 per cent. The business of 1895 gave a surplus of \$318,995, an increase of \$106,876 over the preceding year. Prominent citizens of Chicago have taken steps to organize a life insurance com-

Gage, Melyille E. Stone and other solid business men of that city are in the move The death of William A. Booth, one of the old guard that organized the Mutual Life of New York, was recorded last week. Mr. Booth carried a policy for \$5,000, taken in 1843, that yielded at the time of his

death \$13,613.

Frederick W. Downer has been elected president of the American Fire Insurance Company of New York in place of James A. Silvey, resigned. Mr. Downer has been connected with the company since its or-It is reported at Columbus and Cleveland that suits will be brought in the Ohio Su-preme Court to test the right of the Ohio Insurance Department to admit Lloyds to do business in the State. Six Lloyds have

been admitted so far. The report filed with the Supreme Court of Massachusetts of the receiver of the Commonwealth Mutual Insurance Company shows assets of less than \$16,000, against liabilities of \$95,000 and that the deficiency must be raised by means of assessment. At the fifteenth annual meeting of the Mutual Reserve Fund Life the old officers were re-elected. The annual report shows an increase in income, gross assets and net surplus. The business in force was reported at over \$308,650,000, and the increase in business in 1895 over \$15,250,000. An effort is being made in Maryland to abolish the office of State fire marshal and the duties of the office over to the State Insurance Department, to be porformed by a deputy of the department. The insurance companies are opposed to the

The accident insurance companies which insured the life of S. H. Sullivan, the assignee of the Columbian Fire, of Louisville, Ky., will, it is understood, the claim of the estate for the insurance. on the ground that the death of Mr. Sullivan was not caused by accident but by

The new business of the Home Life of New York in 1895 aggregated \$12,304,314, against \$10,287,850 the previous year; that of the Fidelity Mutual of Philadelphia, \$19,571 .-919, against \$19,449,750; that of the Berk shire Life, \$9,000,000, against \$7,450,678, and the Netherland Life reports premium receipts of \$301.549, a gain in business over 1894 of \$10,887,233.

A San Francisco dispatch says that a compilation of the figures of the companies in the aggregate, showing the result of the fire insurance business in the old Pacific Union territory has just been completed. It shows premiums received of \$8,600,000, with osses of \$4,600,000, a ratio of 53 per cent. The loss of premium income in the territory directly due to the rate war was \$2,750,000. The Union Central Life of Cincinnati has gone on record against rebating, having dismissed, after conviction, one of its agents at New London, Wis., named B. A. Weatherby. The agent's license was revoked by Insurance Commissioner Fricke. of Wisconsin, and that official's action has been approved in a letter written by President John M. Pattison, of the insurance

company The committee of Pittsburg (Pa.) policy holders of the Mutual Reserve Fund Life of New York, which was sent to New York to investigate the condition of the association, made a report at a meeting of the policy holders held Jan. 17, and declared that it found everything satisfactory, whereupon the meeting passed resolutions pledging its loyal support to President Burnham.

The American Union Life informs its policy holders, in a circular, than at the end of eighteen months' existence at the close of 1895, it had on its books \$7,128,197 in surance, earning a premium income of \$158,000 representing an increase of insurance in force as compared with 1894 of 75 per cent. and more than that increase in premiun income. The gross assets were \$611.972, and the liabilities \$116,263, leaving a gross surplus to policy holders of \$425,709. The jury at Chattanooga, Tenn., in the case of the State against the executive board of the Kentucky and Tennessee Board of Fire Underwriters, charged in

the Circuit Court with "conspiracy to main-

tain a trust and to raise the price of in-surance against the interests of trade and commerce and against the peace and dignity of the State," returned a verdict guilty as to all the accused The termination of these cases will settle the insurance muddle in that region. An opinion has been rendered by Attorney-general Maynard, of Michigan, on the application of the Insurance Commi of that State, to the effect that under the laws of 1887 an assessment life insurance company of another State which contracts in his certificate or policy to pay to the insured an endowment or dividend during his own lifetime, cannot do business in the State. Nor can such a company law-fully issue in the State limited payment life policies or agree to give cash surren-ders, paid-up policies or accident insur-ance policies.

ANOTHER EXCITED DAY IN THE WHEAT MARKET AT CHICAGO.

Armour Openly Selling, but Believed to Be Secretly Buying-Corn, Oats and Provisions All Stronger.

CHICAGO, Feb. 1.-Another agitated and very strong wheat market was added today to the long list of the last two weeks. The price started with a jump of about 1%c and at the end 2%c rise had been established for the day. Corn and oats were likewise stronger, but only moderately active. Provisions also made another small

The opening of the wheat market was a surprise to the trade and set the pit of May was 659654c and this morning a wild shout went up for it at from 661sc to 661/2c and as soon as those who had sold calls for the day at from 65%c up to 66%c could get their voices keyed up to had passed. In about forty minutes from the opening of and after the prices had settled again to 66%c, the market took another whirl to 67c. Armour was a heavy open seller, both on the first and on the second advance, although there was scarcely a man in the pit who did not think Armour manipulation was at the bottom of both bulges. The corn trade news figures, showing an unexpectedly large deficiency in wheat supplies for Europe, was perhaps the prime bullish factor, although this was followed up by a decrease of 1,680,000 bushels in Liverpool wheat stocks during January. The Liverpool cable quoted 1d advance and there were estimates of a large decrease in the amount offered for Monday and in the English visible supply. The total exports from both coasts for the week was astonishingly light, coasts for the week was astonishingly light, a decrease in Liverpool wheat stock and compared with the week before, showing a the statement that the Argentine crop was shrinkage of 1,300,000 bu in wheat and flour. 25 per cent. below an average. This caused and the Northwestern deliveries continue liberal. But these bearish factors were lost sight of in view of the bullish conditions reported from abroad and there was active covering by shorts and energetic investment buying, and the advance was sharp and excited and well maintained. Armour made a pretense of selling early, but soon withdrew. The country was in the market again and commission houses had heavy buying orders. The short sellers were thoroughly demoralized and dared do nothing but buy back what they had previously sold; they were afraid to go over Sunday short a bushel, and in that state of feeling they bid the price up near the end to 674c for May and 67@67%c for July, and the market rested

with sellers at those prices. Corn was strong and moderately active in sympathy with the extreme bullishness of wheat. May opened 1/3c higher, at 301/3c, rose to 31c and closed %c higher at 30%c sellers. The oats market was quiet early, but when wheat commenced to go up there was more activity shown and the price steadily advanced. May opened at from 21c to 21%c, sold up to 21%@21%c, and closed at that

price, an advance of %c.

Provisions were fairly active and stronger, though the influence of wheat was partially offset by liberal selling by packers. Com-pared with yesterday's prices May pork losed 15c higher and lard and ribs .07%c nigher each. Estimates for Monday-Wheat, 88 cars;

corn, 356 cars; oats, 192 cars; hogs, 24,000 Leading futures ranged as follows: Open- High- Low- Closest. est. Wheat-Feb May 671/4 Мау Sept Oats-Feb March ... May Pork-Feb\$10.55 \$10.621/2 \$10.521/2 \$10.60 May 10.80 July 10.95 Lard—Feb ... 5.72½ May ... 5.95 July ... 6.07½ Ribs—Feb ... 5.20 May ... 5.45 July 5.57½ 5.60 5.571/2 Cash quotations were as follows:

Flour firm; winter patents, \$3.40@3.75; straights, \$2.90@3.40; spring patents, \$3@3.35; spring straights, \$2.60@2.80; bakers', \$2.10@2.40; No. 2 spring wheat, 654@65%c; No. 3 spring wheat, 62½@63½c; No. 2 red, 69¼@69¾c; No. 2 corn, 28¾c; No. 2 oats, 19¾c; No. 2 white, 21@21¼c; No. 3 white, 19¾@21c; No. 2 rye, 40½c; No. 2 barley, nominal; No. 3, 25@35c; No. 4, 24@25c; No. 1 flaxseed, 92½c; prime timothy seed, \$3.67½; pork, per brl, \$10.60@10.65; lard, per lb, 5.77½@5.80c; short-rib sides (loose), 5.35@ 5.371/2c; dry-salted shoulders (boxed), 4% @5c; short-clear sides (boxed), 54,05%c; whisky, distillers' finished goods, per gal, \$1.22, Sugars—Cut loaf, 5.80@5.81c; granulated, 5.19c;

Receipts-Flour, 9,000 brls; wheat, 38,000 bu; corn, 267,000 bu; oats, 278,000 bu; rye, 6,000 bu; barley, 73,000 bu. Shipments—Flour, 7,000 brls; wheat, 88,000 bu; corn, 94,000 bu; oats, 147,000 bu; rye, 9,000 bu; barley, 18,000 bu.

From a Broker's View Point.

(Chicago Dispatch to O. H. Faught.) Wheat-The opening on wheat this morning was a justification of the sanguine feelon a range of from 66%c to 66%c, while the | are very light. The stock increased 72,000 close last night was 65c to 6518c. Early caoles overshadowed every other consideration, Liverpool showing an advance equal to 14c per bushel. The decrease of Liverpool stocks was 600,000 bushels, more than was anticipated, and the report of a brisk demand at full prices indicates an awakening on the part of the Britons that the market is on a legitimate basis. The total advance in Liverpool in the past three days equals 3%c per bushel. A private cable says that Argentine shipments of wheat will be delayed a month owing to the lateness of the crop. At the opening to-day there was a scramble of shorts and sold-out bulls, who endeavored to reinstate themselves. Bradstreet shows export of wheat from both coasts for the week as 2,550,000, and this includes 791,000 bushels from the Pacific coast. The high point of the day was reached on a cessation of offerings and the accumulation of buying orders. The market is beyond the control of any one or any set of operators. The lecrease in Liverpool stocks, with only 2,500,000, pointed toward them as weekly exports, is a particularly strong feature. It is a certainty that the fashion of selling, so universal for the past two years, has changed, and it is proper now to buy at any price. There is no gainsaying the fact that the information sent out by this company in these letters has been of an exempt quality, and it is matter of surprise to us that more of our customers have not taken our advice and purchased all commodities. We have especially adand those of our customers who have folprofits. The situation is a strong one

vised the buying of wheat and provisions, lowed our advice have realized handsome and shrewd speculators realize the fact and are all long on wheat. The market today closed strong at the top figures. Puts opened at 66% and closed at 66c. Calls opened at 68% and closed at 69c. Last curb, 671/cc. Corn and Oats-These markets to-day were active and strong in sympathy with wheat. They closed strong and considerably above last night's figures. Provisions-The market was character-

zed with the undertone of strength which it has shown every day, and all commodities scored an advance. The closing yes-terday was below to-day's low point. The market closed strong and higher, with good demand.

AT NEW YORK.

Ruling Prices in Produce at the Seaboard's Commercial Metropolis. NEW YORK, Feb. 1.-Flour-Receipts. 2,400 brls; exports, 42,600 brls. Market held higher, to conform to the advance in wheat, which checked business. but steady. DETROIT, Feb. 1.—Wheat higher; No 1 white, 74½c; No. 2 red, 74c; May, 74½c; July, 71¼c. Corn—No. 2, 28½c. Oats—No. 2 white, 22¾c; No. 2 mixed, 21c asked. Rye—No. 2, 41½c. Clover seed, \$4.42½.

Dry Goods. FALL RIVER, Feb. 1.-As was predicted in the statement last week the print cloth market went to 2%c flat as soon as regulars were sold. The rales of regulars were not large and there is still a decided lack of demand among the buyers. The market is steady at 2%c, and manufacturers are realy to sell quite treely. The total sales were very fair and were largely in excess of sales of any week for a month. Odds constituted nearly three-quarters of the sales and these were sold at 2%c basis. The spot sales were quite good, though not nearly enough with the light advance sales to bring the deliveries up to the production. The futures run through to July for deliveries. No month had any material amount of deliveries and the sales ahead Messrs. Remington & Davel farish the following statement: Production for the week, 220,000 pieces; deliveries, 148,000 pieces; stock (odds, 325,000 pieces; 64x64, 382, 000) 708,000. Last week's stock, 636,000 pieces Sales, (odds, 156,000 pieces; 64x64s, 62,000) 218,000 pieces; spots, 57,000 pieces; fu-tures, 161,000 pieces. Sales for weekly deliv-February, 81,000; March, 70,000; April, 31,000; May, 23,000; June, 20,000. NEW YORK, Feb. 1. - Disagreeable

more business in sight, and next week will decide its proportions. Printing cloths quiet and steady at 2%c. Butter, Eggs and Cheese. NEW YORK, Feb. 1.-Butter-Receipts 4,297 packages. The market was steady; creamery, 18@29c; Western dairy, 12@15c; Elgins, 20c. Cheese—Receipts, 1,539 packages.
